SUMMARY

I enjoy building products while caring about UI/UX, web performance, web standards and supporting each other.

EDUCATION

University of Leeds (2008 – 2011)
MEng (Hons) in Electronics & Nanotechnology Engineering, obtained 2:1

INTI College Subang Jaya (2006 – 2008)
Diploma in Electrical and Electronic Engineering

EXPERIENCE

Creator
Sametable (Mar 2020 – Present)
www.sametable.app

Designed, developed, and launched a task management tool using Preact, Webpack, **Postgresql**, Redis, **NodeJS**, Firebase, and **Google Cloud Platform**.

Software Engineer
Kaodim (May 2019 – Present)

Lead front-end architect and developer of the Kaodim 'Clean & Fix' application in Grab 'super-app' using **Preact**, **Webpack** and **Babel**.

Application Developer
PrimeKeeper (Nov 2017 – Aug 2018)

Developed a financial dashboard using **ReactJS/Redux** with modern practices, and a e-wallet mobile app using React Native.

Front-end Engineer
Theta Service Partner Sdn Bhd (Jan 2017 – Nov 2017)

A pioneer team member of the company's reusable UI component library using **Angular2**. Proven its utility by leading a 3 person front-end team to develop a MVP of a loan management application for a bank within 3 weeks while in close collaboration with the designer, business analyst, and QA teams.

Full Stack Developer
Streamline Studios (Aug 2014 – Sep 2016)

Built various features for the game studio's project management software that keeps them and their clients on the same page on game developments using vanilla Javascript, **JQuery**, **HTML5/CSS3**, **MySQL**, and **PHP**.

INTERESTS

Street photography, cross-disciplinary reading, bootstrapping side projects, running.
